

NORTHSHORE HAMILTON – CEDAR ROAD & MACARTHUR AVENUE PROJECT

CONSTRUCTION UPDATE

11 March 2022

Planned out of hours works

We wish to advise of some upcoming out of hours works required to the Riverwalk area in front of the tennis courts, please see plan overleaf.

What will the works involve?

As part of the Cedar MacArthur Avenue infrastructure project, a new underground stormwater outlet from MacArthur Avenue to the Brisbane river has been installed. The out of hours works proposed relate to where the new outlet meets the river, and due to the nature of the works can only be undertaken at low-tide periods.

When will these changes take effect?

To coincide with low-tide periods, these out of hours works will begin in the early morning on Friday 18th and Saturday 19th March. The scheduled times are as follows:

- **Friday 18th March** - 2.00am start 5.00pm finish
- **Saturday 19th March** - 2.00am start - 11.00am finish

Preparatory works will begin in the area prior to the 18th March however these works will be within normal working hours and have no additional impacts to the general public.

What are the impacts of the out of hours works?

- Noise - General machinery will be used for lifting activities, placing stormwater pipes and gravels. Noise should be generally at a low level. All high-noise preparatory activities will occur during normal working hours in the lead-up to the Friday 18th March.
- Traffic / pedestrian access - No changes to the existing pedestrian or traffic access will occur during the works. The Pedestrian diversion in place around the Riverwalk will remain.

We would like to thank residents and road users in the area for their patience and understanding while this important project progresses.
