Dear Residents

Re: Recent access to site by residents

We appreciate your understanding and patience during construction of stage 1 works in the Oxley Priority Development Area (PDA). Just a friendly reminder that the Oxley PDA is a construction site and Shadforth prides itself on ensuring the public and workers are kept safe during construction.

For safety reasons, regulations around site access and Workplace Health and Safety exist to restrict access to construction sites and any potential hazards on the site.

As the Principal Contractor, Shadforth is responsible for making sure that only people who have completed the relevant safety inductions and who have the appropriate site related identification are permitted access to the site unsupervised.

There are strict Shadforth policies and Government regulations surrounding this, primarily designed for your safety and safety of the workers onsite.

While we are happy to answer questions and work with residents to ensure their queries are addressed, we would appreciate if you could please adhere to the site regulations around access.

There is signage on all gates providing details of contact numbers for various site personnel and EDQ, as the landowner, has provided further contact details on their Have your Say webpage and various communications they have provided to the local community.

If you have a concern or query, please do not hesitate to contact one of the team listed below or email EDQ at edqengagement@dsdti.qld.gov.au.

We thank you for your patience while we complete this work.

Kind Regards,

Campbell Thompson ► Project Manager
