

Monday 24 January 2022

53 Seventeen Mile Rocks Road, Oxley – Songbird Oxley

Shadforth would like to advise of the upcoming truck movements scheduled to dispose asbestos containing material from 53 Seventeen Mile Rocks Road, Oxley (site). The disposal of asbestos containing material to a licenced land facility is due to commence on Thursday 27th January 2022 and is anticipated to be completed on Wednesday 2nd February 2022, weather permitting.

Residents were advised of the removal of the asbestos containing material in Shadforth’s notice dated 26th October 2021. The asbestos containing material has been safety stockpiled onsite following removal and is now able to be disposed off site to a licenced land facility.

Disposal of the material will be monitored by a licenced asbestos removalist who will be on site, monitoring and supervising its loading and export off site. Three to five air monitoring devices will be set up and validation samples will be collected daily and submitted to an accredited laboratory where a qualified hygienist assesses the samples and confirms whether works can proceed on the basis that any fibre concentrations in the air are recorded within the prescribed limits.

There will be up to seven truck movements per hour entering and exiting the site via Seventeen Mile Rocks Service Road. Trucks exiting the Seventeen Mile Rocks Service Road will be carrying the asbestos containing material. See truck haul route below.

Shadforth would like to thank residents along Seventeen Mile Rocks Service Road, the C&K Yuingi Childcare Centre workers, parents and children and the greater local community for their ongoing patience during these works. If you have any questions or concerns regarding these works, please do not hesitate to contact one of the following people:

Company	Title	Name	Phone Number	Email
